Miles has been instrumental in enhancing the productivity of businesses with its diverse range of quality tools comprising Staplers & Tackers, Hammer Tackers, Pneumatic Tackers, Staple Remover, Staples, Industrial Staples, Stitching Wire, Tape Tool, Cutter Knives & Blades. Our tools are powered by the latest technological innovation. So far, we have been the preferred name for professionals and DIY's. No wonder, when it comes to efficiency, one name that comes to mind is "Miles".

About KGOC

For more than six decades, we have been helping the world to organise businesses and assisting people to bring out their creative best with innovative and high precision products that help to 'Join, Fix or Cut' through our brands - Kangaro, Miles, Munix and Kohe. We are one of the largest manufacturers and suppliers of high quality Staplers, Staples, Staple Removers, Paper Punches, Tape Dispensers, Gun Tackers, Tape Tool, Cutter Knives & Blades, Pneumatic Tools, Industrial Staples, Stitching Wire, Scissors & Kitchen Essentials etc. KGOC brand identity symbolises the unification that signifies flexibility and limitless possibilities to create a new future.

About Miles

Miles, from the house of KGOC offers professional range of Staplers / Tackers, Pneumatic Tools, Tape Tool, Cutter Knives & Blades, Staples, Industrial Fasteners, Stitch Wires & Staple Remover comes to you with exacting standards in quality, design and ergonomics. It has always been our endeavor to bring to the market not only great but also innovative and cutting-edge products that add to efficiency and productivity of users. For the same credit goes to our development centre which helps us stay ahead of the curve by developing solutions that are ground-breaking, both in terms of utility, as well as design.

Infrastructure

KGOC has seven state-of-the-art manufacturing facilities, which possess high quality machinery for precision engineering. All units are vertically integrated, wherein all manufacturing operations are performed in-house, right from manufacturing of the smallest parts such as spring, rivet etc. to complex multi-part components.

Development Centre & Tool Room

KGOC has a well equipped Research and Development (R&D) Centre and an ultra modern Tool Room having all the latest facilities. R&D centre, along with its over 200 quality engineers provides the innovation and design breakthroughs that not only simplify life but also compliment the uncompromising quality benchmarks that we have set for ourselves. There are CAD/CAM/CAE set ups which manufacture using the softwares. CNC wire cuts, CNC EDM machines, CNC Milling Machines and other such machinery and equipment develop quality Tools, Jigs and Fixtures which enable KGOC to manufacture the required international quality end products.

Mission

To be the leading manufacturer and supplier of quality products in the world.

Vision

We help people organise their ideas and their life. By enhancing their productivity and efficiency.

Environmental Policy

KGOC has a benevolent Environmental Policy which gives weightage to sustainability and green manufacturing procedures. Environmental awareness and sustainability are not mere words at KGOC. Utmost care is taken to maintain greenery on the land on which our factories are built. Our pledge to the environment is very much woven into our DNA, our philosophy and our way of life. Each one of us believes in the ideology to protect the environment and create a sustainable future. We have made huge investments in solar energy.

Quality Policy

'Quality Culture' runs into every segment of KGOC's working supported by a team of more than 4000 highly qualified professionals, engineers, technocrats and dedicated workers, whose devotion and dedication has become a cornerstone of KGOC's success. "We believe that quality is the life line of every business and is committed to satisfying its customers by manufacturing and supplying its products to their entire satisfaction first time and every time with continual up-gradation in the effectiveness of the quality management system."

Stitching wires for your packing solutions.

Our stitching wires are primarily used for corrugation industry. These are tailored to meet the exact requirement of the customers not only in terms of cost and availability but with the assurance of consistent quality.

Miles Layered Wound Stitch Wire - Features

1. Layer winding of stitching wire for automatic machines for better performance
2. Uniform mechanical properties across length ensuring optimal performance of stitching heads
3. Avoid premature wear out of machine
4. Energy saver & less maintenance cost
5. The wire is more evenly wound on the coil to provide continues operation during production

Available in : Commercial grade & Rust Resistant grade

Sizes Available : 12/25, 13/25, 14/25, 12/22, 14/22 & 15/22

Weight of Spool : 40 Kg. & 15 Kg.

This stitching wire is the most affordable and most commonly used in the corrugation industry. It is made out of mild steel wire and has electro galvanized coating of Zinc.

Commercial Grade

This stitching wire is also made out of mild steel and has electro galvanized coating of Zinc and it is better than commercial grade of stitch wire.

Rust Resistant Grade

This stitching wire is made out of pure stainless steel wire and is 100% rust proof. It is economical as compared to brass and copper wires.

** Size 13/25

Sizes available for Commercial / Rust Resistance Grade : 12/25, 13/25, 14/25, 17/25, 12/22, 14/22 & 15/22

Sizes available for Stainless Steel Grade : 13/25 & 14/25

Weight of Coil : 2.50 Kg., 15 Kg. (Spool) & 40 Kg. approx

Packaging : Corrugated Box - Laminated from inner side

- High corrosion resistance due to superior galvanized coating
- Uniform mechanical properties across length ensuring optimal performance of stitching head
- Avoids premature wear out of machine and reduces energy and maintenance cost
- Wire is evenly wound on coil / spool to provide continuous operation while production
